Prospectus.

THE AUTO BOOK CONCERN has been organized.
First. To acquire and control the American and European
patents of the AUTO BOOK BINDER, and the AUTO BOOK TRIMMER
MACHINES, that, to the book-making art, mark an advance as im-
portant as the Steam Printing Press was to the Washington Hand
Press fifty years ago; and to manufacture and operate said machines,
in this and in foreign countries.
Second. To acquire the most complete set of stereotype and
electrotype plates, in this country, of the standard popular authors.
These are stored in fire proof vaults in the City of New York. They
are perfect and cost over \$1,000,000.
Third. To manufacture with the use of these Automatic Machines,
all grades of books, including school and music books, and sell the
same at greatly reduced prices, to its Stockholders and the trade.

The Company will not sell or lease any of its machines within the
United States, but to the European book-making craft only.

THE AUTO BOOK BINDER and the AUTO BOOK TRIMMER are run
at little expense. They are marvels of simplicity. The binder, with
the assistance of two girls, picks up printed sheets and covers, and
converts them into solidly and flexibly bound volumes, neither sewed
nor wired. These machines perfectly perform their tasks, and are
henceforth as indispensable in producing books, as the perfected
presses are to the newspapers.

It is proposed to provide families, students and school teachers
with libraries at trifling expense and the best current literature at
prices heretofore unknown and school books for the children of the
million, neater and cheaper than ever has been done.

Statement of Earnings.

The profits on the publication of the standard and popular works from the plates which the Company acquires have exceeded \$100,000 yearly
under the old processes of manufacture, assuring to the stockholders a profit of at least 10 per cent. per annum from this source alone. With the
use of the Auto Machines these profits must necessarily be largely increased.

It is impossible to estimate the returns from the ownership of the patents and the sale of the Machines in Foreign Countries, but it is a well
known fact that patents covering machinery that create a revolution in any important trade have proved enormously remunerative to the original
owners, and soon repay the full amount of capital invested. Additional dividends will be declared from time to time as such profits are realized.

Stockholders' Postal Supply Bureau.

An important feature of the sale department of the Company is the STOCKHOLDERS' POSTAL SUPPLY BUREAU.

The Company acts as agent for each stockholder in the purchase of all books published, and secures for stockholders the
greatest possible discount, varying from 25 to 50 per cent. Stockholders will also be supplied with catalogues containing the
list of the Company's publications, with a confidential price list, giving the wholesale prices and a special additional discount,
which will be given to stockholders alone. Such discounts to stockholders will amount to an immense sum on the yearly
purchase of books, thus yielding large DISCOUNT DIVIDENDS, in addition to the Cash Dividends, on the investment.

The price to be paid by the Company for the American and
Foreign patents of the Auto Book Binder, the Auto Book Trimmer
and the stereotype and electrotype plates of the Standard Works is
\$1,000,000; \$350,000 in cash and \$650,000 in the stock of the Company;
the vendors agreeing, however, to donate to the treasury of said Com-
pany \$150,000 of the stock they receive in part consideration of the
conveyance of the above property.

To meet said cash payment of \$350,000 to said vendors and to
supply the necessary working capital, 50,000 shares of the capital stock
of this Company are now offered for public subscription at par

Applications for stock with remittances must be made to WINTHROP POND, Treasurer, THE AUTO BOOK CONCERN
at the Company's office, 203 Broadway, New York.

(\$10 per share). This stock is full paid and non-assessable. Purchasers
incur no personal liability. The remaining stock is retained by the
vendors, as it is expected to command a large premium when the
machines are in universal use.

Subscriptions to stock can be paid for in full on application, or
20 per cent. can be paid on application, the balance in one and two
months. Should the stock offered be over-subscribed, preference will
be given to subscriptions accompanied by full payment. Early ap-
plication is, therefore, recommended.
